## GUIDA ALLE ATTIVITA' incentrate sull'uso di CORPORA-STEP 3

Lo step 3 è strettamente correlato allo step 2: entrambi sono incentrati sullo studio del lessico, la cui centralità nell'apprendimento linguistico è ormai indiscutibile, risultando notevolmente rivalutata rispetto al passato. Come sottolineato da Rosanna Ducati<sup>1</sup>, "gli stimoli a riconsiderare il ruolo del lessico sono venuti da più direzioni, ma grande importanza hanno avuto le informazioni provenienti dalla 'linguistica dei *corpora*'.

Lo step 3 del percorso prevede la consultazione in sala multimediale della banca dati offerta dalla *Perseus Digital Library* consultabile cliccando sul link <a href="http://www.perseus.tufts.edu/hopper/">http://www.perseus.tufts.edu/hopper/</a>. I ragazzi dovranno prendere confidenza con il linguaggio tecnico richiesto (in inglese) e dovranno imparare a muoversi nel sito selezionando le informazioni con i giusti criteri per poi accostarsi autonomamente al materiale nelle proprie attività di studio a casa.

Bisognerà innanzitutto mostrare come impostare la ricerca, inserendo correttamente i termini in greco antico, senza dimenticare spiriti e accenti:

Compito del docente sarà quello di rendere note le funzioni più importanti messe a disposizione dal sistema:

- la FREQUENZA (Word frequency statistics) con riferimento alle diverse voci già oggetto di studio nello step 2 (significato di 'agorà' ed 'agorazo' nelle tre fonti -LSJ, Middle Liddell, Slater-), alle varie forme –attico, dorico, eolico-, ai casi –nominativo, accusativo- e così via.

<sup>&</sup>lt;sup>1</sup> Rosanna Ducati 'Lo sviluppo della competenza semantico-lessicale'. Cfr. Guida allo Step 2.

1

LSJ	Greek-English Lexicon by Liddell, Scott & Jone	s detailed large lexicon with citations and definitions
Middle Lidde	Il Intermediate Greek-English Lexicon	lexicon with more concise definitions, fewer citations
Autenrieth	A Homeric Dictionary by Georg Autenrieth	specialized dictionary
Slater	Lexicon to Pindar by William J. Slater	specialized dictionary

- le parole correlate attraverso la schermata 'Matching Lemmas' :

Si ragionerà sul significato delle parole individuate dalla ricerca, connettendo le informazioni ottenute con quelle ricavate dall'attività di approfondimento lessicale dello step 2: gli studenti avranno modo di memorizzare i termini già incontrati, dando un assetto definitivo alla 'famiglia di parole' ricostruita nelle precedenti ore di lezione.

Si entrerà dunque nel cuore dell'attività di 'indagine': tramite la funzione di ricerca 'Word frequency information for 'agorà", i ragazzi, lavorando preferibilmente in gruppi di 2 o 3 componenti, potranno esplorare la banca dati presente nella *Perseus Digital Library* alla scoperta di tutti i testi del patrimonio classico greco in cui compare la parola 'agorà'.

Inizialmente si guiderà la ricerca, partendo dalla parola 'agorà' nei testi del **Nuovo Testamento**, per creare una connessione con l'attività successiva (step 4):

Si proseguirà selezionando qualche passo tratto dalle opere di **Demostene** (già citato nello step 2 a proposito dell'arte della parola e della retorica), che compaiono spesso nell'elenco di frequenza, indagando sul contesto d'uso della parola 'agorà' nelle diverse situazioni:

Dopo aver illustrato i principali meccanismi di ricerca e consultazione, si affiderà la successiva fase di 'scoperta' alla libertà e alla curiosità dei diversi gruppi di studenti. La ricerca prenderà una piega differente a seconda dello stimolo personale. Il docente affiancherà l'attività di ricerca solo parzialmente, fornendo spunti di riflessione (ad esempio, chiedendo di individuare alcuni passi in prosa ed altri in versi, guidando gli allievi nella contestualizzazione degli autori), ma mantenendo libera la scelta dei campi di indagine. Si potranno scegliere dunque vari passi da analizzare analiticamente dal punto di vista morfosintattico nel corso dello step successivo.

Un'altra attività interessante è quella di indagine a partire dal link:

http://www.treccani.it/enciclopedia/agora (Enciclopedia-Italiana)/.

Si fornisce ai ragazzi la definizione di 'agorà' presente nell'Enciclopedia Italiana del 1929, chiedendo di rintracciare, attraverso l'uso del corpus informatico, i passi di Demostene e Aristofane citati.

Durante la ricerca sarà fondamentale porre l'accento sulle diverse possibilità di indagine offerte dai *corpora*, "particolarmente utili per esplorare alcune importanti caratteristiche del lessico che con altri mezzi, ad esempio con il dizionario, sono difficili da analizzare o da spiegare", ovvero: la frequenza, la polisemia, la sinonimia, la collocazione, e, soprattutto, le concordanze.

Le concordanze consentono di visualizzare le collocazioni tipiche di una parola: accanto a quali termini si trova comunemente la parola oggetto di studio? Essa si ritrova in collocazioni fisse o in unità lessicali polirematiche, o, ancora, in frasi idiomatiche o modi di dire caratteristici di un registro particolare?

Attraverso il sito della *Perseus Digital Library* sarà inoltre possibile consultare diverse collezioni di materiali. E' presente un vasto repertorio, contenente non solo fonti letterarie, ma anche archeologiche, molte delle quali sono state consultate durante lo step 1 (attività CLIL). Sarà possibile, a seconda del tempo a disposizione, continuare la ricerca, tirando le fila del discorso in prospettiva geocritica.

Look through a massive library of art objects, sites, and buildings. The library's catalogs document 1305 coins, 1909 vases, 2003 sculptures, 179 sites, 140 gems, and 424 buildings. Each catalog entry has a description of the object and its context; most have images. Descriptions and images have been produced in collaboration with many museums, institutions, and scholars. Catalog information and keywords have been taken from standard sources, which are cited in the entries for each object.

<sup>&</sup>lt;sup>2</sup> 'Corpora e apprendimento del lessico', R. Ducati P. Leone – LEND. Area tematica: Sviluppo della competenza semantico-lessicale.
