

## Cultural Values

Image Source: <http://blog.changeboard.com>

Our cultural values are central to our ability to make ethical decisions in all aspects of life. As you discuss ethics in GMOs you will find your cultural values differing and overlapping with the cultural values of others.

How has your cultural values impacted what you view as the responsible release of genetically modified organisms?

What are some of the cultural values that might be impacting the views of others regarding the release of genetically modified organisms.
