Contents

Abstract

1 Problems with the distinction between qualitative and quantitative research

2 Heterogeneity of the qualitative approach

3 Three general ways of making the distinction

3.1 The distinction as relating to a part of the research process

3.2 The distinction as relating to complete research methods

3.3 The distinction as relating to research philosophy

4 Using the difference between the natural sciences and the human sciences as a way to legitimate the distinction

5 Discussion
