

Coursework training programmes

Online Coursework Training programmes provide an opportunity to learn about and practise the skills necessary for setting and marking coursework. They also contain interactive activities and guidance from the moderator.

At the end of the course teachers will:

- understand the requirements of the coursework component of your Cambridge syllabus
- have a clear understanding of the skills necessary for setting and marking coursework
- be prepared to mark coursework to Cambridge standards.

Courses will take approximately 3 hours to complete.
