

Enrichment Professional Development

Online Enrichment Professional Development is for teachers and school leaders who have been teaching or implementing Cambridge programmes and qualifications for at least a year and would like to develop their practice in specific areas. This level of our training encourages teachers to reflect on, and take greater responsibility for their teaching as well as become more innovative in their classroom practice.

Online Enrichment courses are 5 weeks and focus on the following:

- Week 1: Introductions and overview of Assessment for Learning/Active Learning.
- Week 2: Exploring what effective Assessment for Learning/Active Learning looks like.
- Week 3: Preparing Assessment for Learning/Active Learning techniques to try in the classroom.*
- Week 4: Teaching practice and reflection.*
- Week 5: Planning next steps to integrate Assessment for Learning/Active Learning in teaching practice.

*Weeks 3 and 4 will involve putting what you have learned in to practice and reflecting upon the outcome. It is important that you have access to learners during these weeks.

Getting Started with Active Learning		
Getting Started with Assessment for Learning		

Successful completion of these courses is based on participation in collaborative activities with teachers from around the world. Discussions and activities each week are in groups. We recommend that teachers access the courses every day. A certificate is awarded to participants who complete key weekly activities and participate fully in discussions throughout the course.
