

| ACTIVITY | OBJECTIVES |
|-----------------|--|
| 1 st | To activate our students' prior knowledge and engage them. |
| 2 nd | To develop reading skills by understanding the general idea of a text so as to introduce the topic. |
| 3 rd | To be able to work in a team and to search for and select information by themselves. To understand some environmental problems and the influence our dietary habits have on them. |
| 4 th | To select, synthesize and classify information in order to create a collaborative mindmap. |
| 5 th | To develop oral skills and analyse the relation between vegetarianism and the population's growth. |
| 6 th | To apply the information learnt in this essay to their real life and to develop written skills. |
| 7 th | To become conscious of the learning process that has taken place in the project. |
