

Religious Preferences

Image Source: <http://guides.library.msstate.edu/content.php?pid=136282&sid=1189553>

Religious practices and beliefs can impact scientific practices and business practices. One's religious preferences can affect our sense of ethics and the adherence to a particular code of ethics.

Do you believe or have you observed religious preferences impacting the responsible release of GMOs?

Does this product conflict with any known religious values?
